smarti[®] DIADEM

The Diadem unit is a fan-less solution, it is meant for indoor and outdoor use. It has an aluminium front casing which is IP65 compliant, it is in-wall or on-wall mountable. The inbuilt adjustable (up & down) IR CCTV camera and IR LED lights provide higher reliability of identification in all lighting conditions. The unit is also equipped with an 8" colour touch screen, integrated motion detector, microphone, speakers, Intel Centrino processor, built in storage, internal memory, communication ports and relay I/O controller.
