Friday, 30 May 2008

Dear Tomaz,

Please find enclosed your finalist certificate to acknowledge your outstanding achievement in the IFSEC Security Industry Awards 2008.

Due to an initial printing issue, the certificates had to be hand written in order to get them to you quickly following the Awards evening. However we have been able to re-print the certificates to a higher quality and standard. I hope that the revised certificate is to your satisfaction and that you will be able to display it with pride.

I do hope you will be involved in the IFSEC Security Industry Awards next year and the team and I look forward to receiving your entries.

Best regards

Katherine Mannix
Group Events Manager
